

## Deactivator

EAS deactivator, also known as decoder degaussing device, is specially used for decoder degaussing of EAS soft labels so that the products would not trigger the alarming function. Existing EAS deactivators mainly adopt electromagnetic structure: turn on the power to generate a certain intensity of magnetic field to eliminate the magnetism in EAS soft labels. Thanks to the plastic magnetic plate structure, the volume of decoder is greatly reduced, and no external power supply is needed, which brings great convenience to the shopping mall.

### Retailer Values

//High strength universal mounting security deactivator. It can open a large variety of magnetic release soft labels.

//No external power supply is needed, which brings great convenience to the shopping mall.

### Specifications

**Color** .....Black  
**Dimension**.....20\*30mm  
**Weight**.....360g  
**Material** .....ABS  
**Model number**.....DE-05

### Solution Application

Application: Supermarket, garment shop, retail shop general merchandise etc

### Environmental Constraints

#### Temperature

Maximum storage temperature not to exceed 60°C (140°F) for 96 hours at 80% RH.

#### Humidity

Unaffected by 80% humidity at 60°C (140°F), up to 96 hours.

### Packing Details

Packing Details: 50pcs/ctn; 12.45kgs/ctn; 0.019cbm/ctn

Packing by premium carton

### Shipping:

Sea Port: Ningbo or Shanghai

Air Port: Hangzhou or Shanghai

Lead Time : 15 Days for regular order
