

Deactivator

EAS deactivator, also known as decoder degaussing device, is specially used for decoder degaussing of EAS soft labels so that the products would not trigger the alarming function. It consists of pad and unit. The AM deactivator has possibility to make synchronization by software, which could better match AM system to work efficiently. Existing EAS deactivators mainly adopt electromagnetic structure: turn on the power to generate a certain intensity of magnetic field to eliminate the magnetism in EAS soft labels.

Retailer Values

- //High strength universal mounting security deactivator. It can open a large variety of magnetic release soft labels.
- //Regardless of the orientation of the label, a single action can invalidate a protected item, thus speeding up checkout and reducing unnecessary time delays.
- //Built-in audible and visual indicators provide immediate feedback when active labels are detected and deactivated

Specifications

Color	Black
Dimension	30.2x17.4x1.2cm
Weight	415g
Material	ABS
Model number	DE-A018

Solution Application

Application: Supermarket, garment shop, retail shop general merchandise etc

Environmental Constraints

Temperature

Maximum storage temperature not to exceed 60°C (140°F) for 96 hours at 80% RH.

Humidity

Unaffected by 80% humidity at 60°C (140°F), up to 96 hours.

Packing Details

Packing Details: 5pcs/ctn; 16kgs/ctn; 0.052cbm/ctn

Packing by premium carton

Shipping:

Sea Port: Ningbo or Shanghai

Air Port: Hangzhou or Shanghai

Lead Time : 15 Days for regular order
